MPACS Faculty

Clinical Faculty

T. Andrew Binkowski
• Area of expertise: Mobile Application Development, iOS, Bioinformatics
• Assistant Clinical Professor of Computer Science

Gerry Brady
• Area of expertise: Data Analytics, Machine Learning, Algorithms
• Associate Clinical Professor of Computer Science

Amitabh Chaudhary
• Area of expertise: Data Analytics, Machine Learning, Algorithms
• Associate Clinical Professor of Computer Science

Adjunct Faculty

Jeff Cohen
• Area of expertise: Web Development
• Adjunct Assistant Professor of Computer Science

Mark Shacklette
• Area of expertise: Systems and Applications
• Adjunct Professor of Computer Science

Andrew Siegel
• Area of expertise: Numerical Methods, High Performance Computing, Software Design
• Adjunct Professor of Computer Science

Michael Spertus
• Area of expertise: Programming
• Adjunct Associate Professor of Computer Science

Arlene Yetnikoff
• Area of expertise: IT Security
• Adjunct Assistant Professor of Computer Science

Lecturers

Marty Billingsley
• Area of expertise: Computer Systems
• University of Chicago Lab School Computer Science instructor

William Conner
• Area of expertise: Security and Privacy
• Software Engineer at Google

Nicholas Flees
• Area of expertise: Compilers
• Quantitative Developer at Sun Trading

Zach Freeman
• Area of expertise: Programming, Data and Trading Systems
• Senior Engineer at Barksdale Trading Group at Lupo Futures

Adam Gerber
• Area of expertise: Programming
• Software Architect and Independent Consultant

Dries Kimpe
• Area of expertise: High Performance Computing, Parallel I/O, Computational Fluid Dynamics
• Senior Software Developer at KCG Holdings, Inc.

Kevin Krafhefer
• Area of expertise: Systems, Software Product Management and Start-ups, Linux
• Senior Director of Product Management at Ray Allen

Anoop Mayampurath
• Area of expertise: Statistics, Machine Learning, Algorithms, and Data-Analytics
• Senior Research Scientist at the Computation Institute

Nicholas Paredes
• Area of expertise: Design measurement and validation in startups and companies
• Founder, GetBetty, Inc.

Paul Romano
• Area of expertise: High Performance Consulting
• Computational Scientist at Argonne National Laboratory

Lamont Samuels
• Area of expertise: Programming

Adam Shaw
• Area of expertise: Programming
• Senior Lecturer, Department of Computer Science

Vas Vassiliadis
• Area of expertise: Cloud Computing
• Director, Products Communication and Development at the Computation Institute

Peter Vassilatos
Area of expertise: Programming
